Sviatoslav Sviatkin

Frontend developer

@dmhd6219

About myself

FrontEnd developer with experience in React and Next.js with BackEnd development skills in Python. I am eager to learn, solve complex problems and layout beautiful interfaces :)

Work experience

KachanovCraft · Frontend developer

February 2024

Developed a landing for the server in the game Minecraft. Fully layout the site on the layout in Figma. Adapted the site for mobile devices.

SmashUp · Frontend developer

Varch 2024 - June 2024

Developed a web application - music platform. Full layout of the site in Figma, connected it to the backend. Configured CI in the repository on GitHub. Stack - Next.js, TailwindCSS. In development I also used Eslint + Prettier, husky + lint-staged.

Innopolis University · Frontend developer

June 2024 - Present time

I'm developing a layout website in figma using technologies like React, Redux Toolkit, RTK Query, zod, react-router-dom, Prettier + Eslint, husky + lint-staged.

Education

Innopolis University

3rd year · 2022 - 2026

I am studying in the “Software Development” program. GPA (grade point average) at the moment is 4.33. I have completed with “A” grade many useful courses, such as “Algorithms and Data Structures”, “Design and Analysis of Software Systems”, “Web Application User Interface Development’, ‘UX/UI Design”.

Yandex Interface Development School

2024

During 2 months I listened to lectures on frontend topics and did homework on them, then during a month in a team I developed a project given by the Yandex team and participated in hackathons.

The project was a store with an admin panel. We used React, TailwindCSS, shadcn-ui. I was a teamleader on the project, did almost all the layout, connected most of the backend, set up watching and CI/CD.
